

## **SAFETY, HEALTH, ENVIRONMENT AND QUALITY POLICY**

The management of **OPTIPOWER PROJECTS (PTY) LTD** undertakes to ensure that all projects are conducted in a fatality, injury and disease-free environment. We are committed to our SHEQ responsibilities that form an integral part of the way we operate and do business.

**To achieve this goal OptiPower Projects' management undertakes to:**

- Establish appropriate management systems that are ISO 9001, ISO 14001 & OHSAS 18001 compliant to promote zero accidents and zero illness.
- Implement reasonably practical and possible measures to identify, assess and monitor all potential workplace hazards, which may affect the safety and health of our employees, clients, their employees, the general public as well as the well being of the environment.
- Continually invest in the safety, health, environment & quality, and improvement of our resources and to continually educate and train personnel so that they may understand the need for the correct use and maintenance of our facilities and care of the environment.
- Adhere to, develop, implement and maintain SHEQ systems that are consistent with internationally recognized standards & practices, and all local legislatures.
- Promote all stakeholders to report to management any deviations that come to their attention. All incidents will be fully investigated and communicated to other staff members in order to minimize recurrence.
- Formulate and regularly review procedures to enable all our employees to advice, either directly or indirectly, management of matters relating to personal safety, health, environment and quality.
- Setting and reviewing company's occupational health, safety, environment and quality objectives and targets ensuring continued business growth and improvement.

**By applying the above and the involvement and assistance of our employees we believe that OPTIPOWER PROJECTS (PTY) LTD will operate efficiently, profitably and safely to the benefit to all.**

**ROBERT THOMPSON**  
Managing Director
